Network Signage Display Quick setup guide

www.digitalframe0.com

Copyright ©EOOKE ELECTRON. All RIGHTS RESERVED.

EOOKE WWW.DIGITALFRAME0.COM Want to be familiar with system in a fast way without prior deploying own system? Please check this quick guide on how to connect the display to your network account and publish programs.

**Note:** The free account have limited features, please deploy your system as soon as possible.

1. Turn the screen on, navigate to [Network setting], and connect it to your wired/wireless network.

2. Navigate to [sever info], then input your server info, and click "Sure" to blind the signage screen to system.

## Note:

- 1. Your Terminal Name, Org ID and server address are available on printed manual, Readme.txt on USB drive and order shipping email.
- 2. Don't forget to update the server into on display when you switch between your own system and free account.
